MEMORANDUM FOR: See Distribution List

SUBJECT : Calendar of Events

1. I plan to prepare a listing of major calendar items for display in the Management Information Center. This will be used for reference purposes at the regular Monday and Friday Staff Meetings. I have in mind preparing two boards -- one showing major events and meetings that occurred during the past week and a second showing items on the calendar for the coming week. The second board will also show selected major events in the coming month such as ExCom, IRAC, and USIB meetings or other items having major impact on the Staff.

2. [] will be responsible for preparing the displays. He will need from each of you by Thursday each week a listing of your key calendar items. Attached is a suggested format.
